1 Scenario Description

You are in charge of Amtrak's Train 143, the Saturday/Sunday Northeast Regional from Springfield, MA to Washington, DC. You will operate the train from Springfield to Hartford, where another driver will take over.

Duration: 40 minutes
Difficulty: moderate
timetabled passenger train

2 Installation and System Requirements

System Requirements: Train Simulator 2015 must be installed. Backwards compatibility to older versions of Railworks/Train Simulator cannot be guaranteed.

Rolling Stock Requirements: The add-ons and DLC packs listed below are needed to play this scenario.

Read this if you do not want to download or buy quite so many files: With the help of Mike Simpson's (donationware) RW_Tools suite of utilities you can quite easily substitute any piece of equipment used in this or any other scenario. Please read on here for more information about RW_Tools: www.rstools.info

The following three payware add-on packs have been used to write this scenario:

From Trains and Drivers:

[Virtual New Haven Springfield Line Route](#)

From DovetailGames / Steam DLC:

[New York – New Haven Route DLC](#)

[Amtrak P42 DC 'Empire Builder' Loco Add-on](#)

Installation:

1. Download the **RWP file** and save it in a secure place on your hard disk.
2. Now install the RWP file with Train Simulator's Package Manager. To access that tool, **launch utilities.exe** in the main Train Simulator installation folder.
3. Note: You can find utilities.exe by right clicking on the Train Simulator 2015 title in your Steam Library, selecting Properties, and then clicking the "Browse Local Content" button on the "Local Files" tab.
4. Once the Utilities are running, go to the **Package Manager Tab**, click the **Install** button, browse to the file from step one, click **Open**. The package will be installed now, after which you can already run the scenario in the game!
5. You'll find the scenario listed in the **Standard Scenarios** Tab and by filtering or browsing to the VNH Springfield Line Route.
