

Great Northern Budd RDC “Inspection Tour”

for DTG Train Simulator 2015 by Golden Age of Railroading

1 Scenario Description

2 Installation and System Requirements

3 Copyright, Repaints, Distribution, Warranty

4 Support, Dovetail Games Disclaimer

1 Scenario Description

This is a fictional scenario: It is 1971, Burlington Northern is still in its infancy. In order to familiarize new management members with the Cascades Division, the retired GN RDC has been reactivated for an inspection tour across Stevens Pass. You have been assigned as the engineer for this special occasion.

Please note that this scenario pack utilizes a lot of pay- and freeware add-ons. This was the only way to model the colorful consists and lashups of the early Burlington Northern “rainbow era”, when cars and locos of the former 'Hill Lines' could be seen all over the BN network and before the green livery slowly replaced the original owners' liveries on many rail vehicles throughout the 1970s and 80s.

Duration: 240 minutes (three parts: 90+60+90 minutes)
Difficulty: not too difficult
long trip with heavy traffic and red/yellow signals

2 Installation and System Requirements

System Requirements: Train Simulator 2015 must be installed. Backwards compatibility to older versions of Railworks/Train Simulator cannot be guaranteed.

Rolling Stock Requirements: The add-ons and DLC packs listed below are needed to play this scenario.

Read this if you do not want to download or buy quite so many files: With the help of Mike Simpson's (donationware) RW_Tools suite of utilities you can quite easily substitute any piece of equipment used in this or any other scenario. Please read on here for more information about RW_Tools: www.rstools.info

The following three payware add-on packs have been used to write this scenario:

From Trains and Drivers:

[Budd RDC Great Northern](#)

From DovetailGames / Steam DLC:

[Stevens Pass Route DLC](#)

[GN Empire Builder Rolling Stock DLC](#)

[Great Northern F7 Big Sky Blue](#) (strongly recommended to buy via in-game store!)

[GP9 Loco Add-on](#)

[US Loco & Assets Pack DLC](#)

From Golden Age of Railroading:

[BN and Predecessors Freight Car Packs \(all four required, all freeware\)](#)

[BN PS-1 40ft Boxcars Pack \(freeware\)](#)

[EMD SD7 Burlington Northern \(freeware\)](#)

[EMD SD7 Chicago, Burlington & Quincy \(freeware\)](#)

[EMD SD7 Great Northern \(freeware\)](#)

[Great Northern Rolling Stock Pack \(freeware\)](#)

[Low Poly Yard Filler Cars \(freeware\)](#)

[PS-2 4750 cu-ft Hoppers \(MILW, GN, CBQ versions required, all freeware\)](#)

Installation:

1. Download the **RWP file** and save it in a secure place on your hard disk.
2. Now install the RWP file with Train Simulator's Package Manager. To access that tool, **launch utilities.exe** in the main Train Simulator installation folder.
3. Note: You can find utilities.exe by right clicking on the Train Simulator 2015 title in your Steam Library, selecting Properties, and then clicking the "Browse Local Content" button on the "Local Files" tab.
4. Once the Utilities are running, go to the **Package Manager Tab**, click the **Install** button, browse to the file from step one, click **Open**. The package will be installed

now, after which you can already run the scenario in the game!

5. You'll find the scenario listed in the **Standard Scenarios** Tab and by filtering or browsing to the Stevens Pass route.
