'*Rural America*' Town & Farm Objects for RailWorks
Modeled after Having Watched too Many Western Movies
Modeled by Michael Stephan

Dozens of models for typical rural American scenes. All models come in various colors, including weathered wood, white clapboard, and more!

Three packages of freeware models are available:
Rural-Barns.rwp – Various barns and sheds in five colors
Rural-FarmHouses.rwp – Single-floor houses with porch and saltbox farmhouses
Rural-MainStreet.rwp – Many houses and shops with that old 'Main Street' look

All three packages require prior installation of the textures package:
Rural-Textures.rwp – Shared textures for *all* of the above building packs

System Requirements and Installation:

System Requirements: RailWorks needs to be installed, there are no special hard- or software requirements which would go beyond those of the game itself.

Installation:
1. Download the .RWP files and save them in a secure place on your hard disk – just in case you might have to reinstall it at a later time.
2. Launch RailWorks and select the Package Manager on the Welcome Screen.
3. Click the Install button, browse to the file from step one, click Open. The package will be installed now, after which you can already use the new assets in the game!
4. To be able to place the objects in a route, you will first have to enable the object filter (left-hand mid flyout window, button that shows a blue cube with an orange

triangle) for developer "GreatNortherner", product "SteamEra".
5. You will now find the objects in the left-hand flyout assets browser, listed under Domestic Buildings as "Wild West ..."

There are plenty of buildings to choose from:
• barns in three sizes and five colors
• sheds in three sizes and several colors
• eight saltbox farm houses
• four single-story farm houses with porch
• several one- and two-story 'main street' houses, some with, some without signs
• two feed stores and warehouses
• most buildings have illuminated windows at night

Copyright, Repaints, Distribution, Warranty:

All of the contents of this software are copyrighted material. You may use and include them in route uploads as long as they are free of charge. You may not redistribute the entire software package itself (the .rwp file).

You can do repaints of the included objects and you are allowed to distribute them as long as it is free of charge. Actually, please feel encouraged to repaint these models and publish them. We need more variety in RailWorks!

If you wish to include the objects in a payware project of yours, please contact us first so we can make a deal.

This software is provided to you on an "as is" basis without any express or implied warranty of any kind.

One or more textures on this 3D model have been created with images from CGTextures.com. These images may not be redistributed by default, please visit www.cgtextures.com for more information.
